

## SCHEDULE IN HOME DEMONSTRATIONS

By MARGARET M. CORNELL.  
For Week Ending Sept. 2.  
Tuesday, 2 p. m.—Volunteers' class, Liberty Hall.  
Wednesday, 2 p. m.—Sugar Substitute, Irving School.  
Thursday, 2 p. m.—Sugar Substitute, Liberty Hall.  
Friday, 2 p. m.—Canning—Home of Mrs. H. L. Morris, 165 Highland street.

Miss Cornell will continue to give demonstrations on canning, drying and pickling during the remainder of the canning season. Do not fail to attend at least one of these soon so as to be able to save fruits and vegetables before the end of the fall season.

Any home may have a demonstration by inviting to neighbors and arranging with Miss Cornell, telephone 14, Liberty Hall.

**AN APPEAL TO THE PATRIOTISM OF STUDENTS**

The young people of America have answered loyally the call of their country to aid in the defense of democracy and civilization. Students from our schools and colleges, young women as well as young men, have been among the first to volunteer in all lines of service. But the call for service today is not the only call. In the years which are coming our country and the world will need trained men and women as never before. And this places a heavy responsibility upon the boys and girls of today, to lay the foundation for such service by securing the best possible education. The duty to remain in school, to make ready for college, was never so great. Do your bit by preparing yourself for useful citizenship. Economize, practice self-denial, make sacrifices, in order to secure a thorough education.

Be a patriot. Educate yourself today that you may serve your country efficiently tomorrow.

**GARY WOMAN HAD WAR EXHIBIT**

Mrs. Kate Woods Ray Assists State Council at Annual Fair.

Mrs. Kate Wood Ray has just returned from Springfield, Ill., where she took charge of the war exhibit of the woman's committee of the Council of National Defense at the state fair. While in Springfield Mrs. Ray gave an address at the invitation of the war board of Sangamon county to which were invited all war workers visiting the fair. The meeting was held in the Sangamon Club and representatives were present from various departments including the Illinois State Council of Defense at Chicago.

Mrs. Ray was one of the guests invited to see the latest rehearsal of the masque of Illinois' centennial and presented by a cast of over one thousand people in the Coliseum.

Mrs. Ray has been doing war work almost continuously since last February when she went to Michigan. She has just completed an extensive speaking tour of Illinois and is now at home for a brief rest.

The Lady Vikings will not meet Monday as was formerly announced but will have their meeting on September 12th in the K of P Hall.

Better to have War Savings Stamps in your safe than the blood-stained hands of the kaiser's hordes at your throat.

**FARMERS ABIDE BY REGULATION**

Indiana farmers were perfectly satisfied to abide by the regulations in reference to the use of wheat flour and substitutes in equal proportions. They did not ask for any special favors, they do not desire class discriminations, and for the most part, are unwilling to selfishly avail themselves of a privilege not open to other consumers. For that reason it is my judgment that not many will seek to take advantage of the opportunity of exchanging their own wheat for flour without accepting substitutes, and in greater proportion than permitted to others under the food regulations.

The above expression from Dr. Harry E. Barnard, federal food administrator for Indiana, was based upon reports that have come from "but one" of the thousands of exchanging farmers and others interested in maintaining Indiana's record and reputation for strict compliance with the orders of the U. S. food administration, and its program of strict conservation of wheat and wheat products. A number of the country

## RED CROSS NEWS GRENADES

Over 500 canteen stations have been established by the American Red Cross on the railway lines of this country.

Hot weather in Venice, 100—and 250 sick and delicate babies receive especially prepared milk at the dispensary operated by the American Red Cross.

To keep the boys happy, if all while away from home, the American Red Cross has sixteen convalescent houses in operation at base and general army hospitals in this country.

Just to keep the boys warm, the American Red Cross so far has distributed in round numbers 2,000,000 sweaters, 750,000 mufflers, 1,000,000 wristlets, 500,000 hosiery and 1,500,000 pairs of socks.

No less than 300,000 soldiers' and sailors' families have been the recipients of "Home Service" of the American Red Cross, at the request of men in camp worried about family problems.

To help with the re-education of mutilated soldiers at Pavia, Italy, the American Red Cross will supply sewing machines, typewriters and tools for cabinet-making and shoemaking to the territorial hospital of the Italian Red Cross.

Where the rice grows, in the district around Milan, Italy, sixteen asylums are being established by the American Red Cross to care for 650 young children whose mothers, but for this care, would be unable to help in the work of the harvest.

The American Red Cross delegate for the Somme received a letter from M. Dupin, Sous-Prefet at Ham, T. box to acknowledge receipt of the two pumps which you kindly had shipped to me for the cleansing of the wells which have been contaminated by the enemy. "Anything!"

Conte Thon di Revel, commander-in-chief of the Italian fleet, and Admiral Paolo Marzolo, commander of Venice, expressed their appreciation of the work being done by the American Red Cross. An altogether fine spirit of brotherhood and understanding of the work the American Red Cross is attempting to do in Italy was shown by these high naval officials.

A seaside hospital with ordinary and contagious wards and special facilities for those injured or made mentally defective by the war, a nursery-hospital for eighty babies, and a home for orphans from Verdun and Serbia, and children's farm schools or colonies near Cannes, in Tauraine, Marseilles and Lyons, all institutions operated by a French organization, are receiving financial aid from the American Red Cross.

**JOIN THE FOOD CLUB.**

The U. S. Food Clubs are of great value in unifying public opinion. When the war broke out Germany immediately buried her full force into the struggle. This was possible because of Germany's national unity. Under government directions, a definite German state of mind was developed. On matters relating to the national welfare the people thought as one man. It was this that made Lloyd-George say that he feared the united German people more than he feared the Imperial German army.

Unity in an evil purpose can be overcome only by unity in a good cause. We are opposing German barbarity with American civilization. Both sides have tremendous forces at their command. Unless our forces act as a unit we cannot expect to succeed. One hundred million Americans must not only act together but think together. The U. S. Food Clubs will be an important factor in securing this unity of thought. They will keep the citizens of Indiana thinking about food not so much as a body nourisher but as a weapon of war. They will enable the food administration to convey the same information into every Hoosier home. They will convey the same appeals to every part of the state. They will bring the same response from
